Peninsular & Griental Steam Navigation Company's Office, Hongkong, 31st May, 1861. PENINSULAR & ORIENTAL STEAM

NAVIGATION COMPANY. NOTICE OF REDUCTION OF PASS-AGE MONEY.

IN the year 1857 the Directors made a consider

able reduction in the Ucmpany's rates of Passage Money, which continued in force till 1881. In that year, owing to the extraordinary rise in the Cost and Freight of Couls, and the enhanced price of all descriptions of Naval Stores, the Directors were reluctantly compelled to return to the rates of Passage Monoy previously in force. They are now happy to state that a decrease in the price of Coal and other expenses of Steam Navigation enables them to reduce the Company's | |

Plans of all the woodwork required for fitting up the interior have already been forwarded to Hongkong with instructions to have everything prepared, so that no delay may occur on the arrival of the materials for the external frame of the edifice. The building has been so planned that the Master of the Mint will have under his eye at one view whatever is going forward in every part of the establishment; for which desirable purpose great facility was afforded by the fact that all the processes of the Mint are to be conducted on the ground floor, while the upper part of the building will be appropriated for the residence of the Muster. The Impurial Bank of China, announced in our issue of the 11th, has been changed to the Imperial Bank of China, India, and Japan, in order. to embrace the entire oirole of business from London to Japan. It is also intended to extend cording to the Talmud, measured about three inches men, operations, plans, achievements, etc-who operations to Australia, which the India and China by six; the fig-leaf of a fashionable lady to-day have obtained a power of doing in an hour more branches are satisfactorily established. The capital bas been increased from one to two millfons, and the shares are in demand at 3 premium. If properly conducted, there is ample room for all its contemplated action, and although the directors place. Australia as the last in have attention. we may remind them that no bank has been established in London for that country for about ten years. The prices of the shares of London-Australian banks may be quoted as an index of the profitable nature of the business. We understand that Mr. Honry Turner, late Binanger of the Agra Bank at Hong Kong, has accepted the appointment of Manager in London. The directors, by selecting officers who have practicel-knowledge of business in India and Chinas will cut short their preliminary expenses very.

The Messageries Imperiales mail steamer Said which left Marseilles on the 19th inst., conveyed 35 passengers, 452 packages, cargo, and £548,000 specie for India and China, also 40 passengers, 1,353 packages, and £229,400 specie for Alox.

The directors of the Agra and United Service Bank (Limited) have convened a special meeting of the shareholders for the 7th of May, to confirm the agreement for the amalgamation with Mesers. Masterman and Co.; to change the company's name to the Agra and Masterman's Bank (Limited) ; to appoint Mr. Edward Master, man, Mr. William Peters, and Mr. Federick Mildred, directors ; to increase the number of the board to not more than 18; and to increase the company's capital to £3.000,000 by the issue of 20,000 new shares of £50 each. It is proposed-. That 10,000 of such new shares shall be offered to the holders of the original £1,00 shares, in the proportion of one new £50 share to every two original £1 00 shares held by them respectively on the 15 May. 1864, at a premium of £30 per share, to be paid, together with £25 per share. within six calendar months, by such instalments. as the directors shall appoint, with liberty to the shareholders to pay up the £30 and £25 per share in advance. That the residue of the 20,000 new shares, together with such of the 10,000 as shall not be applied for by the bolders of the original shares, may be disposed of by the directors as thet think most beneficial to the company. That the capital created by the new shares shall be considered as part of the original capital, and two of the new sources shall be equivalent to one

original share. The commercial advices from New York (says of foreign -- goods continue on an excessive scale, while the exportations show a great diminution. The question of extinguishing the Reciprocity Treaty with Oanada excites great interest. and is one on which the Protectionist party, by whom the Government is now controlled, are likely to put forth all their power. This treaty was based upon principles of equality for the two countries, but the absorption of Inbour and the in 1 flation of the currency in the United States operate so much in favour of the lodustry of Canada as to raise a general clamour for shutting her out from the power of competition. Of course the attainment of this object would have no substantial effect; because, if the goods now obtained from Capada were obtained instead from producers in the United States, these producers must abandon some other branches of manufacture in order to have the time and labour for the purpose, and these branches must in turn be supplied from Europe. The treaty is liable to be terminated by either party on 12 month's notice at the expiration of 10 years from the 11th of September, -1954, when it came into meration, and the Coramittee of Commerce in the House of Representatives have just adopted a joint resolution recomresolution however, in coupled with a proposal that the President should appoint a commission to negotiate a new or modified treaty, that shall ? be mutually satisfactory to both Governments. The gold in the New York Banks continues to decline, and is now only 44,100,000. while the amount in the Government Treasury has been reduce to £5,130,000-- s i serious state of affairs, when it is borne in mind that the country is believed to have been drained to a great extent of its internal specie, and that it is mainly to the supply in the banks and the Treasury that the holders of the national bonds must look for their dividends, and that the merchants must trust to the same source for procuring the means of remittance for the balance of imports over exports; Of the gold belonging to the Tresposit at San Francisco.
